Sep

#### Requirements

### Entry requirements

You should be aware that meeting the grade requirements specified does not necessarily guarantee admission as there may be additional requirements you need to satisfy.

Secondary School Leaving Certificate

**136+ UCAS tariff points 120 - 135 UCAS tariff points 96 - 119 UCAS tariff points**

Foundation Programme required

### English language

The standard University requirement is 6.0\* with no sub-test less than 5.5 (or equivalent) on IELTS, or on the university's own entry test BASALT. Conditional offers to international students will be made on this basis.

IELTS - at least 6.0\*, with at least 5.5 in each of the four sub-tests (speaking, listening, reading, writing).

TOEFL - at least 80\*, and sub-tests not less than 18 in Reading, 17 in Writing, 17 in Listening and 20 in Speaking if you require a Student Visa.

Other qualifications which may be accepted:

There are other English language qualifications which may be accepted. For example, the University of Bradford also recognises:

- Cambridge Advanced Certificate - grade C or above
- Cambridge Proficiency Certificate - grade C or above

Please note that we **DO NOT** accept the **TOEIC** test.

## Accommodation

### Accommodation Costs:

- The Green Village: £85 per week
- Townhouse: £75 per week

## Speciality

**Pathways Available:** International Foundation Year | International Year Zero

**Sandwich course fees** - charged during the placement year away from the University of Bradford for students on thick sandwich courses, or during the year in which the second placement falls for students on thin sandwich courses. Students charged at 10% of the equivalent full-time fee.

If a placement year is to be undertaken abroad and supported by University funding through the University's exchange programmes, fees will increase to 15% of standard fees to cover additional support, advice and administration costs.

**As part of this course you will be required to purchase a lab coat worth £10.**

## Additional information

# Degree Overview

On this programme you will learn disciplines such as: rehabilitation engineering – prosthetic / orthotic devices, biomaterials and implant design, tissue engineering and wound repair for artificial organs,

genomic coding and genetic engineering, medical technology – design and manufacturing. All teaching on this course is informed by the latest research, and is delivered by experienced medical engineers and clinical scientists. This course will help you gain professional insight from leading industry partners, and hands-on practical experience in our state-of-the-art engineering laboratories.

You will also have the option to do a placement year in industry which will enable you to build contacts whilst developing your skills and professional confidence.
