Additional information

Degree Overview

If you want to share your knowledge and shape the minds of primary-aged children or work with marginalised children or adults, the University of Notre Dame Australia's Bachelor of Education (Primary)/Bachelor of Behavioural Science qualification is the perfect double degree. This nationally recognised five-year degree combines educational theory and classroom learning with an essential practical component.

When you study at Notre Dame, you will be inspired by our innovative approach to teaching and learning with the latest in learning technologies. Our degree will provide the academic skills you need to support, engage, and extend primary-aged children by integrating theory and practice.

You will choose one specialist subject area for your education degree. Follow your passion and choose from Science, HASS, Special Needs, Drama, Service Learning and Social Justice, Mathematics, and English.

When you study the Bachelor of Behavioural Science component, you study critical psychology, political science, cultural studies, and sociology. Behavioural sciences forge connections between traditional psychology and social work while promoting respect for social and cultural diversity.

You will complete 32 weeks of school-based professional teaching practice as an integral part of your degree. You will experience total immersion in a classroom environment and gain valuable insights into your chosen career.

Study Reasons

- Graduate job-ready with industry-specific skills and knowledge
- Benefit from a unique, personalised approach to education and pastoral care
- Lecturers are industry professionals and leaders in their field
