Additional information

Programme description

This specialisation is aimed at inquisitive people who want to explore the secrets of accounting and tax law, from the basics to advanced audit and auditing techniques.

Our specialisation is not just theory - it is primarily practical skills in auditing, auditing, computerized accounting and consulting that will allow you to successfully analyze the financial situation of companies and flawlessly distinguish fact from financial fiction.

What you will learn:

- **you will discover the secrets of financial reporting**, learning the principles of creating reliable and transparent financial statements that are the basis for sound business decisions.
- **you will master the secrets of financial accounting**, exploring the principles of recording business events, preparing balance sheets, profit and loss statements and other financial reports.
- **you will gain knowledge of internal and external auditing in a company**, learning to identify, assess and control risks, as well as conduct audits to ensure the proper functioning of the company.
- **you will learn to use modern computer accounting tools** to streamline accounting processes and increase their efficiency.
- **you will learn the principles of calculating tax and non-tax burdens of enterprises**, which will enable you to optimize the company's tax liabilities and ensure its compliance with current regulations.

Career Perspectives

Our graduates work as:

- accountant,
