

Schiller International University (Paris)

Bachelor of Science in Computer Science

Study details

Course type: Bachelor's degree

Degree: BS - Computer Science

Study mode: Full time

Duration: 48 Month

Cost of study

Cost : 15 400 EUR

Reg. fee : N/A EUR

Scholarship :

Insurance : N/A EUR

Intake/s

Jan/Sep

Requirements

- transcripts, passport documentation, proof of English proficiency...

As an Undergraduate student you need to know:

- For transfer credit, you need:
 - An Official Transcript recognized by the United States Department of Education, or recognized by the respective government as institutions of higher education, for international-based institutions.
 - A high school diploma, or official high school transcript indicating date of graduation, or official GED transcript if you are US citizen/legal resident there.
 - Proof of completion of secondary education if you were educated outside of the United States or the American educational system. Examples may include the Abitur, Selectividad, Baccalauréat, International Baccalaureate (IB) “O” and “A”-level exam results (You can see it in section “Proof of High School Graduation, Secondary Education, or GED” for further details).
 - To send the enrollment agreement signed.
 - To include a copy of an official ID or passport (Visa Students).
 - For those who have completed undergraduate studies at a non-US recognized institution, you must arrange to have an evaluation of a foreign transcript for any credits you wish to transfer to SIU. This independent evaluation can be done by one of these fully accredited evaluation agencies:
 - International Credentials Evaluators (AICE).
 - American Association of Collegiate Registrars and Admissions Officers (AACRAO).
 - National Association of Credential Evaluation Services (NACES).
 - Evaluated transcripts should be forwarded to respective admissions department of the Campus where you plan to enroll.

Accommodation

Housing - € 950
Food -€ 320
Transportation - € 40-84
Telephone - € 32
Miscellaneous Personal Expenses - € 300
Books, Course Materials, Supplies, & Equipment - € 35
TOTAL - € 1 721

Additional information

Degree Overview

Transform your career with Schiller International University's Bachelor of Science in Computer Science, where you'll gain hands-on experience with innovative tools like Python and engage in real-world challenges. The program offers a comprehensive education in software development, artificial intelligence learning, data analysis, and cybersecurity, equipping you with the skills needed to succeed in today's fast-paced tech landscape.

At Schiller, you'll apply theoretical knowledge to practical projects. You will work on real-world solutions, such as implementing machine learning algorithms or developing secure systems to manage big data. This project-based learning approach ensures you graduate with not only technical expertise but also valuable hands-on experience, making you highly competitive in the job market.

In addition to technical proficiency, Schiller provides a truly international education. You'll study in a multicultural environment, collaborating with peers from around the world. With campuses in Tampa, Madrid, and Paris, you have the opportunity to experience different cultures while expanding both your personal and professional horizons. This global perspective, combined with a solid foundation in emerging technologies, prepares you to excel in a tech-driven, interconnected world.

Study reasons

Innovative Tools - Gain hands-on experience with essential technologies like **Python, JavaScript, SQL, Anaconda**, and **Power BI**, along with advanced skills in **cloud computing** and **machine learning**, equipping you to tackle the latest challenges in the tech industry.

Global Experts - Learn from a diverse group of **international professors** and benefit from partnerships with leading global companies like **SAS, EY, Airbus**, and **IBM**, gaining real-world insights and networking opportunities.

Hackathon Participation - Enhance your critical thinking and creativity by participating in **hackathons**, where you'll work in international teams to solve real-world problems and develop innovative solutions.

360° Tech Profile - Develop a comprehensive tech skill set, from **software development** and **cybersecurity** to programming and **data analysis**, ensuring you're fully prepared for a wide range of career opportunities.
