Accommodation

Campus Hub Residence

Our fully serviced living facilities are designed to integrate a comfortable residency for our students, which is only 20 minutes off the University Campus by bus. We aim to ensure that all our students feel safe, secure, and satisfied in our Campus Hub. With its calm and pleasant atmosphere, contemporary residential rooms, fitness facilities, intriguing retail establishments, and budget-friendly cafés and restaurants, students are made to feel right at home. There is a direct bus facility to school from the residence, which creates ease of access for our students.

?320/week – high season

Speciality

Additional information

The Award in Information Technology and Study Skills provides an academic and professional foundation to students in all aspects of digital society, internet technology and the WWW, and in computer hardware and software.

In addition, the Award covers academic writing, communication and digital skills together with effective study practice and career planning. Students will also be encouraged to develop a career plan and will be supported in their aspirations.

The foundation in essential areas of information technology is supplemented with broader based knowledge and skills to enable students to proceed towards studying information technology and/or related areas at higher education levels (MQF/EQF Levels 5 and 6) and so pursue a career in

information technology.

The Award in information Technology and Study Skills aims to provide students with knowledge, understanding, some critical appreciation and practical skills in information technology to prepare them for study at undergraduate degree level (MQF/EQF Levels 5 and 6) in core and related areas.

This Award will also provide students with the essential academic, communication and digital skills to help prepare them to progress academically and professionally. Students will also be supported in their career aspirations and career planning.

By studying key areas of information technology, including digital society, internet technology and the WWW as well as computer hardware and software, students will be prepared to go on to study further or enter the career of their choice once they have successfully completed the course and achieved the award of an MQF Level 4 Award in Information Technology and Study Skills. GBS Malta is offering students access to the Malta Get Qualified Scheme, enabling students to benefit from tax credits that help lower overall study costs. This scheme is highly valuable, giving back 70% of tuition fees after graduation.
