Additional information

Our BSc Bioscience with Management will provide you with the fundamental knowledge and applications of modern bioscience at the same time as equipping you with essential management skills. This combination offers you the opportunity to operate at the interface of many scientific and business careers. Learning with internationally recognised researchers, study on this bioscience with management degree will provide you with an academic grounding in the science that underpins modern bioscience.

You will develop a sound knowledge of scientific principles across a range of disciplines, including biochemistry, cell biology, chemistry, drugs and drug discovery, genetics, immunology, microbiology, and physiology. You will understand their applications, the opportunities for commercial exploitation and how these can be effectively managed.
