Course Details

business Master's in Project Management course is focused on the needs of the industry and aims to produce graduates who are 'work ready'. A business Master's degree in project management is sought after by many organisations in the public, private and not-for-profit sectors, making it a great way to develop versatile skills, such as planning and organisation skills and increase your employability. You will graduate fully prepared to effectively manage projects, learning strategies for planning, risk management, quality control, leading people and vital communication approaches.

This course is taught by academics with extensive industry experience in workshop-style classes to ensure greater interaction with your lecturer and a personalised learning experience. You will apply the theoretical concepts and project management models to real life case studies and will also have opportunities to work with professional bodies and employers.

This course is accredited by The Chartered Management Institute so upon successful completion of the course, you will have the option to apply for a CMI Level 7 Certificate in Strategic Management and Leadership as well as your degree.

NEW MSc Project Management with Professional Practice

This course is offered as a 2-year full-time business master's programme. Sharing the first year of study with the 1-year MSc Project Management, the 2-year programme benefits from a second year of Professional Practice that is specifically aimed at fostering the employment opportunities of students.

Offering greater flexibility than a traditional Placement Year, our **Professional Practice Year** allows you to decide how to put your skills into practice. Choose between an academic dissertation, business plan, business or consultancy project, or a paid placement in industry, depending on the option that is best suited to your future career path.
