Additional information

Degree Overview

This programme aims to develop your knowledge, critical appraisal, and reflection of practice, of supply chains, logistics, and analytics. Therefore enabling you to:

1. Gain knowledge and skills necessary for successful strategic supply chain management and logistical thinking, within the context of dynamic local and global challenges.
2. Source, analyse, and critically appraise various types of business data and practice.
3. Integrate cutting-edge strategic research and practice to achieve business transformation.

Graduates from the programme will receive an exemption from the academic requirements for membership (Chartered Member or Full Member) of the Chartered Institute of Logistics and Transport.
