

University of Kent

Computer Science (Cyber Security)

Study details

Course type: Master's degree

Degree: MSc (Hons) Computer Science (Cyber Security)

Study mode: Full time

Duration: 12 Month

Cost of study

Cost : 23 500 EUR

Reg. fee : N/A EUR

Scholarship :

Insurance : N/A EUR

Intake/s

Apr/Jan/Jun/May/Sep

Requirements

Postgraduate entry requirements

Please see our general postgraduate entry requirements for detail or use our online postgraduate prospectus to check the entry, requirements for the course you are interested in.

Some, but not all, postgraduate programmes require your undergraduate degree to have a related major. Some postgraduate

programmes may require work experience in a relevant field or at a certain level.

If you are unsure whether your qualification will be suitable, please email our International Recruitment team.

For entry to a Kent postgraduate degree programme (Master's), Georgian students typically need to have completed a Bakalavris Khariskhi (Bachelor degree) or Umaghlesi Ganatlebis Diplomi (Specialist Diploma) at an authorised institution. Exact requirements will depend on the postgraduate degree you are applying for and the institution you have studied at.

For programmes that require a 2:1 we usually ask for a final grade of at least 81%, B, 4.0/5.0 or 3.2/4.0

For programmes that require a 2:2 we usually ask for a final grade of at least 71%, C, 3.5/4.0 or 2.7/4.0

MBA

For details of our MBA programme, please see the MBA course page.

PhD

For entry to a Kent PhD programme, students from Georgia typically need to have completed a

Magistris Khariskhi (Masters degree) at an authorised institution with a final grade of at least 81%, B, 4/5 or 3.2/4.0. Students who have not completed a thesis as part of their degree will need to show evidence of previous research experience. If you would like to pursue a PhD at Kent, you should visit the relevant department website and our find a supervisor page to identify potential supervisors for your research and thesis. You are encouraged to then make direct contact with the appropriate academic to discuss your research proposal.

English Language Requirements

Level	CEFR	IELTS Equivalent
Good	B2	6.0 with a minimum of 5.5 in each component
Very Good	B2	6.5 with a minimum of 5.5 in each component
Excellent	C1	7.0 with a minimum of 7.0 in each component

- Self-catered or meal plan options available
- Wi-Fi and utility bills included
- Free membership to Kent Sport
- 24/7 security and support
- UoK is partnered with UniKitOut for students essentials

Speciality

Pathways Available: Pre-Master's

Additional information

Degree Overview

The Computer Science (Cyber Security) conversion course will give you the opportunity to establish a foundation in cyber security from technical and multidisciplinary perspectives. This is a conversion course intended for graduates with little or no prior knowledge of computer science.

Cybercrime is a growing threat to society, democracy and organisations with increasing high profile cyber security cases in the news. This conversion course has been designed to meet the demands of organisations seeking to protect valuable data. This course will provide you with the key skills and knowledge in computer science and systems security to enhance your career prospects in identifying and solving complex security problems.

The University of Kent is recognised by the British Government as being an Academic Centre of Excellence in Cyber Security Research, meaning you will be taught by staff who are top researchers in this area.
