**Cost :** 39 678 USA  
**Reg. fee :** 80 USA  
**Scholarship :**  
**Insurance :** N/A USA

#### Intake/s

Aug

#### Requirements

- English entry - TOEFL 79 (IELTS 6.5, Duolingo 100)
- GPA entry - 3.0 GPA or equivalent
- have completed secondary school (equivalent to U.S. grades 9-12)

#### Accommodation

Provided by partner agencies

#### Additional information

#### Degree Overview

Industrial Design is the practice of envisioning and creating solutions to complex problems, in the context of human experience. Industrial Designers apply research and creativity to identify opportunities for creating new products, services or systems with a focus on human factors, aesthetic value and user input. The Industrial design program will prepare students to generate creative solutions to complex problems and increase their capacity to be creative thinkers. Through coursework focused on human centered design, students learn to design objects, environments, systems and experiences that are formulated in the context of real world challenges. By developing resourcefulness and adaptability, students learn to identify and analyze problems and objectively evaluate information to form actionable design solutions.
