

## University of Oregon

### Marine Biology

#### Study details

**Course type:** Bachelor's degree

**Degree:** Marine Biology BA/BS

**Study mode:** Full time

**Duration:** 48 Month

#### Cost of study

**Cost :** 44 598 USD

**Reg. fee :** N/A USD

**Scholarship :**

**Insurance :** N/A USD

#### Intake/s

Sep

#### Requirements

- English entry - TOEFL 88+ (IELTS 7.0)
- GPA entry - 3.0 GPA or equivalent

#### Accommodation

- Shared bedroom
- Shared bathroom
- Shared kitchen
- High-speed internet connectivity
- Rooms that come with basic furniture (bed, mattress, desk, chair, dresser and closet)
- All bills included
- Access to student lounges with TVs and games for entertainment
- On-site laundry facilities
- Secure door entry and security cameras for your safety

#### Speciality

If your English and / or academic level is lower than what you see above, please contact us. We will do everything we can to find you a great path to university.

#### Additional information

### About the major

What if your classrooms were tidepools and mudflats? Situated on 130 acres of coastal property along Coos Bay, the Oregon Institute of Marine Biology (OIMB) is a vast, living classroom where students in biology, marine biology, general science, and environmental science study marine organisms in their natural habitat.

Marine biology majors study physiology, ecology, biology, chemistry, mathematics, and physics on campus in Eugene. During junior or senior year, undergraduates immerse themselves in three terms of intensive field and lab classes at OIMB covering diverse topics of marine biology, with opportunities for independent research and internships. With courses such as Invertebrate Zoology, Oceanography, Marine Birds and Mammals, and Tropical Marine Biology in Panama, it is little wonder our majors consider their time at OIMB to be the highlight of their college experience.

## A little more info

- The University of Oregon offers the only marine biology degree in the Pacific Northwest.
- Students who pursue a degree in marine biology receive the same solid background as a UO biology major, but also experience several terms of field-based learning at OIMB.
- The Oregon Institute of Marine Biology is a picturesque complex of laboratories, classrooms, and dormitories located in the southern coastal fishing village of Charleston, Oregon.
- Full-day courses with small class sizes give our majors an immersion experience to study marine organisms with a small group of peers, graduate students, and world-renowned marine biologists.
- Marine biology majors have the opportunity to conduct independent research and participate in internships that prepare them for graduate school and careers as marine scientists.
