## Additional information

## Degree Overview

In order to become an effective marketer, and be able to allocate resources and tap into growth opportunities, students need to understand all economic factors relating to target markets, particularly around emerging markets. Our course combines both pure and application-driven mathematics. By the time you finish your degree, you will be able to use maths to solve practical problems. Computers are used extensively in modern maths and we will introduce you to various mathematical software preparing you for the industry.
