Requirements

Entry requirements

The entry requirement for a postgraduate taught course is typically equivalent to a UK Second Class Honours Second Division (2:2).

The table below shows how the University equates qualifications from your country to UK degree classifications

Qualification	UK 1st Class	UK 2:1	UK 2:2
Bachelor degree	4.5/5.0 or 81%	4.0/5.0 or 71%	3.5/5.0 or 66%
Specialist Diploma	4.5/5.0 or 81%	4.0/5.0 or 71%	3.5/5.0 or 66%

Accommodation

Key Features & Amenities

- Sports facilities
- Hall Wardens & Security - 24 hour assistance
- Social Spaces
- Well-known food chains
- Accessible launderette
- Focus on sustainability

students may choose to explore private accommodation in Bradford. Average prices are expected to be between £50-£130 per week excluding bills.

Accommodation Costs:

- The Green Village: £85 per week
- Townhouse: £75 per week

Speciality

Sandwich course fees - charged during the placement year away from the University of Bradford for students on thick sandwich courses, or during the year in which the second placement falls for students on thin sandwich courses. Students charged at 10% of the equivalent full-time fee.

If a placement year is to be undertaken abroad and supported by University funding through the University's exchange programmes, fees will increase to 15% of standard fees to cover additional support, advice and administration costs.

Additional information

Degree Overview

This programme is ideal for those with a degree in civil engineering/the built environment, management, and cognate disciplines, who are interested in pursuing a career in construction and project management.

During the twelve-month full-time MSc, you will choose from a wide range of modules relating to areas such as:

- sustainability in the built environment
- construction management
- risk assessment
- supply chain management
- management of procurement and construction contracts
- commercial dispute resolution
- sustainable development law in contemporary business society

You will also complete a dissertation relating to construction management.

You will acquire a strong business acumen and a solid understanding of the legal issues surrounding construction management, in addition to a variety of transferrable skills.

The programme is delivered jointly by the Faculty of Engineering and Informatics and the Faculty of Management, Law and Social Sciences, at the University of Bradford. There is a strong input from industry, where an emphasis is placed on providing a supportive environment that will you with the knowledge and learning skills to tackle the challenges in industry.

This MSc will be the first stepping-stone to a fruitful career in construction management.
