

University of Dundee

Civil Engineering

Study details

Course type: Master's degree
Degree: MSc Civil Engineering
Study mode: Full time
Duration: 12 Month

Cost of study

Cost : 23 000 GBP
Reg. fee : 200 GBP
Scholarship :
Insurance : N/A GBP

Intake/s

Jan/Sep

Requirements

Your degree should be in any civil engineering discipline, mechanical engineering, industrial engineering, applied computing, applied physics, applied mathematics, or an equivalent applied or engineering discipline.

Relevant work experience may also be considered, so if you can demonstrate appropriate professional experience, you are encouraged to apply.

English language requirements

IELTS Academic

- Overall 6.5
- Writing 6.0
- Listening 5.5
- Reading 5.5
- Speaking 6.0

We also accept other English language qualifications. (TOEFEL iBT, Trinity ISE, LANGUAGECERT Academic..)

Don't meet the English language requirements?

Pre-sessional English for international students. If you hold a conditional offer and have not yet met the English entry requirements for a degree course at the University, we can help you with our pre-sessional English courses.

Accommodation

Key Features & Amenities

- Self-catered
- Single occupancy
- Access to laundry facilities
- En-suite (with shower and toilet)
- Inclusive of Utility bills
- In easy reach of bicycle storage
- Fully connected to superfast wired and wifi internet
- Connection to Freeview or Freesat

All rooms are single occupancy with private bathrooms (en suite), equipped with superfast WiFi. Rooms cost approximately £140-£70 per week.

Also available are laundry facilities, bike storage, a shared kitchen and weekend parking.

Halls are 10-minutes away from big supermarkets and the train station. Even less is the walk to get to the city centre, full of restaurants, cafes and bars.

Speciality

Pathways Available: Pre-Master's

15 months : 3 months pathway + 1 year degree

International College Dundee

If you do not meet our academic grade requirements for your chosen course, we can offer you an alternative route to begin your studies. Our international incorporated degrees will develop your subject knowledge, academic English and university level study skills.

Tuition fees for International students will increase by no more than 5% per year for the length of your course.

Additional information

Degree Overview

Develop your skills, knowledge and understanding in a variety of engineering topics, such as geotechnical engineering and sustainability, along with vital topics like health and safety and environmental management.

Under the guidance of our academic staff, you will undertake a research project linked to current industry needs.

Recent project examples have looked at sustainability and durability of concrete, hydrodynamics of wave energy structures, computational analysis of fluid flows and data driven analysis of beach stability.

We also have excellent laboratory facilities, including our Scottish Marine and Renewables Test Centre for Concrete and Geotechnics, and a 3m radius geotechnical centrifuge, one of only three in Europe capable of earthquake replication.
