#### Some other documents we may need for your application:

- If it has been more than 1 year since you graduated from high school, submit the Gap in Attendance Form
- If you are a US permanent resident, please submit a copy of your green card. If you have an immigration status other than F-1, you may be asked to submit additional documents to verify your status.
- If you completed any of the following exams: Advanced Placement (AP), College Level Examination Program (CLEP), International Baccalaureate (IB) Diploma Higher Level, you may be eligible to receive additional college credit. Official exam scores will be required to award transfer credit. Visit the Standardized External Examinations page for more information.
- If you are an official partner-agent with San Francisco State University, submit the Student Consent for Release of Information form.

Pathways Available - International Year One

#### Additional information

# **Degree Overview**

Geographers seek to analyze the processes, spatial patterns, and consequences of human-environment interaction and address issues of sustainability, using maps, fieldwork, and geospatial technologies such as GIS to solve real-world problems. Areas of study within geography include resource management, physical geography, environmental studies, methods of geographic analysis, human geography, and urban and land-use planning. The undergraduate major core courses introduce foundational concepts in physical and human geography, as well as field methods and geographic information science. An upper-division distribution requirement gives students more focused work in physical geography, human geography, regional geography, and applied geography or methods. Each student also develops a 12-unit set of electives related to a coherent area of interest based on their career goals.
