University of Dundee

Anatomical Sciences

Study details

Course type: Bachelor's degree
Degree: BSc (Hons) Anatomical Sciences
Study mode: Full time
Duration: 36 Month

Cost of study

Cost : 25 000 GBP
Reg. fee : 200 GBP
Scolarship :
Insurance : N/A GBP

Intake/s

Jan/Sep

Requirements

English language requirements

IELTS Academic

- Overall 6.0
- Writing 6.0
- Listening 5.5
- Reading 5.5
- Speaking 5.5

We also accept other English language qualifications. (TOEFEL iBT, Trinity ISE, LANGUAGECERT Academic..)

Don't meet the English language requirements?

Pre-sessional English for international students. If you hold a conditional offer and have not yet met the English entry requirements for a degree course at the University, we can help you with our pre-sessional English courses.

Study for 4 years (start at Level 1)

The essential subjects are Mathematics + another science (Information Technology, Chemistry, Biology, Human Biology, Physics, or Computing Science) - A-level, GCE CCC

78a Vazha Pshavela Ave, Tbilisi, Georgia

Halls are 10-minutes away from big supermarkets and the train station. Even less is the walk to get to the city centre, full of restaurants, cafes and bars.

Speciality

International College Dundee

If you do not meet our academic grade requirements for your chosen course, we can offer you an alternative route to begin your studies. Our international incorporated degrees will develop your subject knowledge, academic English and university level study skills.

Pathways Available - International Stage One

Tuition fees for International students will increase by no more than 5% per year for the length of your course.

Additional information

Degree Overview

Anatomy is the study of the structure of the body and the relationship of organs and tissues at a gross (whole organ) and microscopic (histological) level.

During your first two years, you'll study modules within the School of Life Sciences. This gives you a solid understanding of physiology, biochemistry and related biomedical sciences.

As the degree progresses, you'll develop a sound knowledge of the human body from the early stages of development to adult form. You'll learn full body dissection on our Thiel-embalmed cadavers and understand the practical methods central to anatomy. You'll also investigate an area of research during your own independent project.

We were the first UK university to use the Thiel embalming system in our teaching. This method of embalming maintains the fascial layers between anatomical structures, and Thiel cadavers retain a high level of flexibility and colour. It offers a novel and revolutionary experience of working with human material compared to other traditional preservation methods.

Our staff are among the most experienced in the UK in the fields of human identification, forensic anthropology, craniofacial identification and the study of the human body.
