Degree Overview

This course is for those who always wanted to study theology at university level, but never managed to find the time. In many instances, their studies, ministry or career took them in a different direction. They now find themselves serving in churches, schools, missional organisations and the third sector, feeling the need for a more structured approach to their study of the Bible and Christian theology. For students unable to attend campus a fully online programme of teaching is available. The Biblical Studies and Theology Certificate of Higher Education equips students with the tools, knowledge and skills they need to effectively study and teach the Old and New Testaments. Students learn how to see their own beliefs and practices within the context of the church's 2000 year history. And they gain fluency in discussing the major doctrines that have shaped the Christian faith. Students who successfully complete the course will receive a Certificate of Higher Education which equates to 120

credits at Level 4. They can finish their studies at that point, or continue studying toward our FdA/BTh undergraduate degrees in Theology, Mission and Practice. The content of this course is the same as the first year of these degrees.
