IY0 (Science)

Additional information

Degree Overview

Our Forensic Science with Criminology degree allows you to explore an exciting discipline in our new crime scene facility. This includes a purpose-built vehicle examination garage, modern lab spaces, specialised decomposition facilities and a mock mortuary. We'll guide you through practical crime scenes and mass disaster scenarios and let you try out your Disaster Victim Identification skills. You'll be taught by industry experts with years of hands-on practical experience, including our Department of Law and Criminology at Greenwich Campus. You'll also work alongside experts from Kent Fire Brigade, the Metropolitan and Kent Police Services as well as Counter Terrorism, UKDVI and the Natural History Museum. This degree is accredited by the Chartered Society of Forensic Sciences, and you'll receive free membership throughout your studies. If you're excited by forensic investigation, such as blood patterns, fingerprints or toxicology, or you want to understand the cause of terrorism and cybercrime, our BSc Forensic Science with Criminology offers a perfect platform for your future career. You'll emerge with the scientific training and transferable skills to become a professional scientist.

Study Reasons

- We offer specialist forensic provision, outstanding laboratory and crime scene facilities
- On this degree you'll focus on real-life clinical case studies to enhance your understanding
- This course will prepare you for employment in both the public and private healthcare sectors, including in the National Health Service, National Blood Service, Health Protection Agency and Medical Research Council, veterinary service, the Health and Safety Executive, forensic laboratories and the pharmaceutical industry.
