

## University of Oregon

### Neuroscience

#### Study details

**Course type:** Bachelor's degree

**Degree:** Neuroscience BA/BS

**Study mode:** Full time

**Duration:** 48 Month

#### Cost of study

**Cost :** 44 598 USD

**Reg. fee :** N/A USD

**Scholarship :**

**Insurance :** N/A USD

#### Intake/s

Sep

#### Requirements

- English entry - TOEFL 88+ (IELTS 7.0)
- GPA entry - 3.0 GPA or equivalent

#### Accommodation

- Shared bedroom
- Shared bathroom
- Shared kitchen
- High-speed internet connectivity
- Rooms that come with basic furniture (bed, mattress, desk, chair, dresser and closet)
- All bills included
- Access to student lounges with TVs and games for entertainment
- On-site laundry facilities
- Secure door entry and security cameras for your safety

#### Speciality

If your English and / or academic level is lower than what you see above, please contact us. We will do everything we can to find you a great path to university.

#### Additional information

### About the major

Neuroscience is for undergraduate students interested in studying the relationship between the brain and behavior. Coursework is jointly taught by biology, human physiology and psychology faculty to provide well-rounded training. Foundational courses are in biology, chemistry, human physiology, math, physics, and psychology. Upper division coursework focuses on three main areas of neuroscience: molecular/cellular neuroscience, systems neuroscience, and cognitive neuroscience. Students can also take advanced skills courses in programming or computational techniques. They may also conduct cutting-edge research in a neuroscience lab.

Neuroscience graduates will have a strong understanding of the structure and function of the nervous system, demonstrate critical thinking, quantitative and analytical skills, and communicate effectively about neuroscience research.

## A little more info

- Neuroscience is an interdisciplinary major that provides students with access to award-winning faculty across three different departments.
- All required neuroscience coursework has an emphasis in research, and students will be encouraged to join a research lab affiliated with the university's Institute of Neuroscience (ION).
- Students are encouraged to pursue additional research and mentorship opportunities, such as SCORE (Students of Color Opportunities for Research Enrichment), the McNair Scholars program, and JUMP (Joint Undergrad-Grad Mentorship Program).
- The University of Oregon is the first public institution in Oregon to offer a neuroscience degree.
