### Course overview

This Master's in Business and Management course allows you to engage with the latest business procedures and strategies while teaching you how to apply your new knowledge and insights in a modern workplace. You will gain important managerial, planning and analytical skills, and the ability to specialise in a specific subject area relevant to your present or future profession, which will help you stand out from others in your field.

This degree enables you to tackle the social, political, environmental, and cultural challenges that modern businesses, governments, and non-profit organisations face. You will acquire capabilities that are in high demand, as you learn under the guidance of world-class industry experts and researchers.

Furthermore, you will be able to immediately apply the skills you acquire in your career, adding to the success of a business. This course helps you take your career potential to the next level with the skills and knowledge to operate more successfully in your profession after completing this postgraduate qualification. You can begin your journey to becoming an impactful leader in the future with our MA in Business and Management programme. You will be engaged in a year-long course on what success in modern corporate management entails, providing great returns on your overall investment.

**Career paths after the course:**

- Senior management roles in all sectors
- Management training
- Management consultancy
- Strategic roles in any context
