

Arizona State University (Tempe campus)

Russian, BA

Study details

Course type: Bachelor's degree

Degree: Russian, BA LARUSBA

Study mode: Full time

Duration: 48 Month

Cost of study

Cost : 35 430 USD

Reg. fee : 85 USD

Scholarship :

Insurance : 2 765 USD

Intake/s

Jan/May/Aug

Requirements

Academic requirements

First-year students must:

- Have a 3.00 grade point average (GPA) (a "B" or better where "A"=4.00) from a secondary school. Some ASU programs may have higher admission or English proficiency requirements and may consider a minimum ACT or SAT score.
- Must have three years of high school coursework. (If you are currently in high school, ASU needs to see 9–11 grade coursework. If you have completed high school, ASU needs to see 10–12 grade coursework.)
- Must have and present a completed high school diploma or certificate.

Conditional admission

ASU may offer conditional undergraduate admission to international applicants to an on-campus program who meet the academic (aptitude) requirements but who are not proficient in English. This offer of conditional admission will give you time to improve your English proficiency before you start classes at ASU. Your conditional admission offer is good for up to three semesters, during which time you must meet one of these requirements to begin your ASU experience.

Competency requirements

International students who completed high school outside the U.S. are required to meet the following competency requirements:

- Math: four years (algebra I, geometry, algebra II and one course requiring algebra II as a prerequisite).
- Laboratory science: three years total (one year each from any of the following areas are accepted: biology, chemistry, earth science, integrated sciences and physics).

Provide evidence of English language proficiency (TOEFL 61)

Accommodation

Provided by partner agencies

Additional information

Program description

The BA program in Russian explores Russia's language, literature, history and more. As part of a small community of program participants with the resources of a large university, students gain intermediate to advanced reading, writing and speaking skills in Russian. They also study Russian civilization, pop culture, protest and propaganda, and classical Russian works.

The program partners with the Melikian Center for Russian, Eurasian and East European Studies to offer a certificate in agribusiness, anthropology, architecture, economics, geography, history, political science, religious studies, Russian, sociology or women's studies.

Concurrent program options

Students pursuing concurrent degrees (also known as a “double major”) earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Global Management, MGM

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program.

Global opportunities

Global experience

Studying abroad is vital when learning Russian language and culture. To be immersed among native language speakers adds value to the degree, and the experience prepares students to take off in an exciting, multicultural career with valuable skills employers seek. Students can choose from programs in many Russian-speaking countries. Programs vary in length, from summer programs to full-year programs.

Career opportunities

Students in the Russian program develop intermediate to advanced language and cultural proficiency. Faculty members mentor students throughout the program to win prestigious paid internships in places like Washington, D.C., and scholarships from government entities such as the Defense, Education, Justice and State Departments.

These experiences open doors to a variety of fulfilling career opportunities. Graduates will be prepared to study advanced degrees and pursue careers in:

- business
- diplomacy
- education
- global security
- international law
- journalism
- military
- public policy
- translation
- travel
