Speciality

Continuation degrees:

- Computer Systems Engineering
- Computer Information Systems for Business
- Computer Science
- Electronic Engineering
- Electronic Engineering
- Computer Information Systems

Additional information

Overview

Covering the major mathematical and scientific principles, this programme gives you a great start in engineering and computing. With a heavy focus on maths, physics and programming, you'll deepen your understanding during your foundation year.

To join this course you will need to have successfully completed high school or equivalent and meet the English language requirements. University offers Pre-sessional English which is a 6 or 12-week extension course for those who may not yet meet the required English language standards for direct entry to our pathways.
