

## Birkbeck University of London

### Natural Science

#### Study details

**Course type:** Undergraduate

**Degree:** BSc

**Study mode:** Full time

**Duration:** 36 Month

#### Cost of study

**Cost :** 17 620 EUR

**Reg. fee :** EUR

**Scholarship :** The scholarship will be applied as a discount to the tuition fee for the first year of your full-time master's course, to bring it in line with the Home tuition fee amount. As part of our commitment to enhancing the global reach of Birkbeck, we are announcing our Global Future Scholarship to support access to postgraduate master's study from all EU member countries, and Brazil. We recognise the importance and value in having a diverse student population from across the world and we're pleased to present this additional option of financial support.

#### Intake/s

Jan, Apr, Oct

#### Requirements

If English is not your first language or you have not previously studied in English, our usual requirement is the equivalent of an International English Language Testing System (IELTS Academic Test) score of 6.5, with not less than 6.0 in each of the sub-tests. We also accept other English language tests.

#### Accommodation

Provided by partner agencies

#### Speciality

On successful completion of this BSc Natural Sciences, you will have gained key transferable skills valuable in a wide-range of employment areas. You will be well-equipped to pursue a career in:

bioscience

earth and planetary science

environmental science

psychological sciences.

If you are ambitious to study further, you can also progress on to postgraduate study in our wide range of Master's degrees in these areas.

We offer a comprehensive careers service - Careers and Enterprise - your career partner during your time at Birkbeck and beyond. At every stage of your career journey, we empower you to take ownership of your future, helping you to make the connection between your experience, education and future ambitions.

## **Additional information**

Our BSc Natural Sciences is designed so that you can construct your degree around your favourite science subjects, from outer space to the human brain, and everything in between. This natural sciences degree allows you to take a holistic approach to the scientific challenges of the future. It equips you with a broad science knowledge base and sets you on the path to being a subject specialist. You will be able to choose modules from across our Faculty of Science while developing core scientific skills in data analysis and laboratory techniques. In your final year, you will undertake a novel research project in a scientific specialism of your choice.

You will follow a core curriculum comprising field classes and laboratory work which aim to foster teamwork and a strong group identity throughout your time at Birkbeck. At the start of your degree, you will choose from one of five pathways comprising modules from two different streams:

- Astronomy and Planetary Science + Bioscience
- Astronomy and Planetary Science + Data Science
- Earth and Environment + Bioscience
- Bioscience + Data Science
- Cognition and Neuroscience + Bioscience
