

## University of Greenwich

### Computer Science (Cybersecurity)

#### Study details

**Course type:** Bachelor's degree

**Degree:** BSc (Hons) Computer Science (Cybersecurity)

**Study mode:** Full time

**Duration:** 36 Month

#### Cost of study

**Cost :** 17 500 GBP

**Reg. fee :** N/A GBP

**Scholarship :**

**Insurance :** N/A GBP

#### Intake/s

Jan/Sep

#### Requirements

##### Country specific academic qualifications:

- Achieving Specialist Diploma or Bakalavr grade Pass
- UKVI IELTS 5.5 with no less than 5.5 in each skill

#### Accommodation

##### Accommodation at Greenwich

**24/7 security:** Security staff on site.

**24/7 residential support:** Residential support staff on-call for advice and welfare.

## Speciality

Pathway international year zero is available

## Additional information

## Degree Overview

This specialised degree is designed to provide you a firm grasp of the science underpinning computer and software systems. Through your studies you will gain practical experience of developing systems using the latest technologies and techniques, as well as exposure to the latest trends that will shape the future of computer science. You will be able to specialise endorsement in Artificial Intelligence, Cyber Security, Data Science, Games or Networking. Modules you can study on this course include Artificial Intelligence Applications, Machine Learning, Information Visualisation and Big Data. Upon graduation, you will be equipped to study independently and to develop and adapt your skills throughout your career.

## Study Reasons

- University of Greenwich is an academic partner with The Council for Registered Ethical Security Testers (CREST).
- Develop and gain theoretical and practical experience in developing computer and software systems, using the very latest technologies.
- This course can be taken in sandwich mode, which means you can take a year to work in industry between your second and final years of study.
