Accommodation

We have a spacious apartment for our students right in the centre of city Montreux. Situated in the same building where the Business school is, our students can rely on comfortable and quick path to their studies. And don't forget about picturesque view from the 6th floor balcony on lake Léman. Education has never been so easy and enjoyable!

SSHE has established a partnership with a trusted accommodation agency through a network of real

estate companies here in Montreux who provide spacious private bedrooms and studio apartments. All of their listings are fully furnished and abundantly equipped; boasting spaces adorned with contemporary finishes in décor and style that are regularly serviced by a professional cleaning and upkeep team. They cater to the specific demographic of students and/or young professionals, thus cultivating a living space and environment of likened inhabitants. Their property is within 5 minutes walking distance to the city center, and a total of 1.4 km's from the business school – having immediate access to all forms of local transport and lakeside walk ways.

Accommodation Fees: 3200-18000

Additional information

Degree Overview

The Master in Project Management program will help students develop skills necessary for successful project planning, coordinating and controlling, such as, leadership, communications skills, technical skills and others. Graduates of the program will get access to higher level positions, such as project managers, project analysts, product/service manager, and quality control manager and/or will be able to start their own business. Through the Master program in Project Management, students gain deeper understanding and extended practical experience in project planning and tasks scheduling, risk management and financial prediction, choosing and developing project team, controlling and measuring results, and following up on team performance.

Key benefits and skills after completion

After the completion of this program, students will be able to apply international, managerial and financial theories to develop leadership skills to implement in different sectors. Graduates will be able to start their career in international organizations, Diplomatic missions, Public sector and other foundations.
