Speciality

Pathways Available: International Foundation Year | International Year Zero

Sandwich course fees - charged during the placement year away from the University of Bradford for students on thick sandwich courses, or during the year in which the second placement falls for students on thin sandwich courses. Students charged at 10% of the equivalent full-time fee.

If a placement year is to be undertaken abroad and supported by University funding through the University's exchange programmes, fees will increase to 15% of standard fees to cover additional support, advice and administration costs.

As part of this course you will be required to purchase a lab coat worth £10.

Additional information

Degree Overview

This course has a great emphasis on biosciences, and then shifts towards disease processes and forensic investigation of physical evidence types.

Alongside the pursuit of core sciences, through this course will study forensic investigation in anthropology and topics relating to archaeology – including the degradation of human remains and physical materials – which will develop your skills in forensic interpretation. The final year develops your professional skills through a forensic research dissertation.

This course will equip and prepare you for a wide range of careers, including those in the professional medical and forensic sectors because of its broad basis and application.
