- Special occasions and celebrations

Speciality

Placement fee: £1,850

Pathways Available

International Year Zero

Additional information

Degree Overview

On this British Psychological Society (BPS) accredited course, you'll explore human behaviour using sound scientific methodology – observation, measurement, and testing – to understand how and why people function in the way they do. Focuses on both psychology and education studies, you will also be introduced to the history of formal education in the UK and explore key contemporary issues and debates concerning social class, race and ethnicity, and social justice in education.

Studying a professionally accredited psychology degree is an essential first step to a career as a psychologist or to progress to postgraduate study. Choosing this programme will help to equip you with key transferable skills including critical thinking and communication, as well as competencies closely linked with the sector, such as scientific research methods, data analysis and data presentation skills.

Graduates of this course have gone on to pursue a diverse range of careers where an understanding of societal issues is key – such as in criminal justice, education, social work, research, advertising, human resources and healthcare.

This course focuses on core areas of psychology including biological, cognitive, developmental and social psychology, as well as covering personality and intelligence, research methods, and historical perspectives. You'll also have the opportunity to explore a range of perspectives and debates concerning contemporary cultural change and how these impact education and learning. Our final year options allow you to tailor your study to specific career pathways.

Study Reasons

Accredited by the BPS, which ensures our teaching is continually relevant to the latest developments and challenges in the sector.

DMU offers dedicated computer laboratories with the latest analysis software, individual research cubicles, interview rooms, and an observation suite, all supported by our psychology technicians team.
