De Montfort University

Mechanical Engineering

Study details

Course type: Bachelor's degree

Degree: BEng (Hons) Mechanical Engineering

Study mode: Full time **Duration**: 36 Month

Cost of study

Cost: 16 250 GBP Reg. fee: N/A GBP

Scolarship:

Insurance: N/A GBP

Intake/s

Sep

Requirements

English language requirements

If English is not your first language an IELTS score of 6.0 overall with 5.5 in each band (or equivalent) when you start the course is essential.

- IELTS 6.0 for Art and Design, Business, Computing and Engineering courses
- IELTS 6.5 for Law courses
- IELTS 6.0-6.5 for Humanities and Media courses
- IELTS 6.5-7.5 for Science courses

Certificate of Secondary School Education

Accommodation

Whether you are hosting an international conference, a live music performance, organising a meeting or arranging a celebration, you'll find the perfect space conveniently located with service to match.

- Dance Studio Hire
- Conferences
- Exhibitions and fairs
- Filming & production locations
- Meetings, workshops & training rooms
- Performances and productions
- Special occasions and celebrations

78a Vazha Pshavela Ave, Tbilisi, Georgia Phone: +995 322 96 11 22

Mobile: +995 596 96 11 22

Speciality

Placement fee: £1,850

Pathways Available

International Foundation Certificate | International Year One | International Year Zero

Additional information

Degree Overview

This degree program touches virtually every aspect of modern life. It's at the forefront of developing new technologies for a multitude of industries including transport, healthcare, construction, and robotics.

Modules of this course focus on a range of topics including computer-aided design (CAD), thermodynamics and heat transfer, solid mechanics, dynamics and control, materials engineering and processing, and product development.

DMU's teaching and content are influenced by our research in aerodynamics, fluid systems, transportation, manufacturing and sustainable development.

Mechanical Engineering can be studied either as a three-year BEng (Hons) programme, or a four-year integrated master's MEng (Hons). At the end of year three, you have the option of graduating with a BEng (Hons) or continuing for a further year for a MEng (Hons), subject to meeting the progression requirements.

Study Reasons

Dual accreditation from the Institution of Mechanical Engineers (IMechE) and the Institution of Engineering and Technology (IET). This fulfils the educational requirements for a Chartered Engineer when presented with an accredited MSc.

Mechanical Engineering students can go on to work in industries including aerospace, automotive, defence, and energy, as well as in product manufacturing and the food and beverage industries.

The course also provides opportunities to pursue careers in broader areas of design, research and development, marketing, sales, production management and quality control.
