

San Francisco State University

Biology

Study details

Course type: Bachelor's degree

Degree: BSc (Hons) Biology

Study mode: Full time

Duration: 36 Month

Cost of study

Cost : 26 000 USD

Reg. fee : N/A USD

Scholarship :

Insurance : N/A USD

Intake/s

Aug/Jan

Requirements

Eligibility Requirements for Freshman from a High School Outside of the US

To be eligible for admission to SF State as a freshman, you must meet the following minimum requirements:

1. Be academically prepared for college/university

Complete a secondary/high school curriculum that totals 12 years of primary-secondary education, be qualified to enter a university in your home country and have a good scholastic record from an accredited/recognized school.

2. Meet the GPA requirement

Have a 2.5 grade point average (GPA) in the 4.0 grading scale or B- average in academic courses completed after 9th grade.

3. Graduate from high school

?You should have, or will have, the equivalent of US high school completion.

See specific secondary school credentials by country.

4. Meet the English Language Proficiency Requirement

See the English Language Proficiency section below for more information.

Eligible English Proficiency Exams

Speciality

IMPORTANT REMINDER: Out-of-State and International students must pay \$420.00 PER UNIT in addition to the tuition fees appropriate to their academic level.

Some other documents we may need for your application:

- If it has been more than 1 year since you graduated from high school, submit the Gap in Attendance Form
- If you are a US permanent resident, please submit a copy of your green card. If you have an immigration status other than F-1, you may be asked to submit additional documents to verify your status.
- If you completed any of the following exams: Advanced Placement (AP), College Level Examination Program (CLEP), International Baccalaureate (IB) Diploma - Higher Level, you may be eligible to receive additional college credit. Official exam scores will be required to award transfer credit. Visit the Standardized External Examinations page for more information.
- If you are an official partner-agent with San Francisco State University, submit the Student Consent for Release of Information form.

Pathways Available - International Year One

Additional information

Degree Overview

Course work ranges from introductory biology to specialized courses in broad disciplines of biology. The department has grouped courses into concentrations to help advise students of appropriate programs of study in various biology disciplines. Each concentration provides a breadth of background in basic biological concepts as well as depth in the specific discipline. Students should consult with an advisor early in their program of study to design an individualized program within the concentration of interest. Lists of advisors are available from the department office and website, biology.sfsu.edu.

Students are responsible for information posted on the department website (biology.sfsu.edu) and in a weekly e-mail bulletin, which declared majors receive, as well as for complying with University, college, and department requirements.

Graduate degree programs provide advanced coursework, seminar experiences, and require a written thesis or research project. The master's degrees provide substantial educational depth and training, giving the student a sound foundation for employment or study in doctoral programs.
