academic and practical experiences to add value — and this International Extended Diploma in Information Technology course is designed for your growth and development in these two areas.

After finishing your studies, you will be prepared for a range of opportunities including vocational apprenticeships and entry-level roles across the IT industry. You will also be ready to continue your studies with an HND, and progress further to gaining a bachelor's degree.

Jobs available in these areas include:

- Software Developer
- Web/Content Developer
- Mobile App Designer
- Games Designer
- Programmer
- IT/Business Analysis Support

These qualifications are recognised by higher-education institutions as fully meeting admission requirements to many relevant courses in a variety of areas of the IT sector, for example:

- HNC in Interactive Media
- FdSC in Business Computing
- HND in Engineering
- BSc (Hons) in Information Management for Business
- BA (Hons) in Accounting and Finance
- BSc (Hons) in Information Management for Business

What will you achieve?

This qualification is designed to support learners who wish to study information technology as a one-year, full-time course. This International Extended Diploma in Information Technology course is carefully designed to ensure that everything you learn in the classroom is backed with the added value of invaluable practical experiences you need. You will develop an understanding of key industry areas including website development and the Internet of Things — with a host of optional modules allowing you to build a personalised learning pathway.

All learners will be required to ace mandatory modules that are directly relevant to progression routes in all the identified areas. Depending on the chosen course, these may include the following:

- Information Technology Systems – Strategy, Management, and Infrastructure
- Website Development
- Cyber Security and Incident Management
