Tuition fees for International students will increase by no more than 5% per year for the length of your course.

Additional information

Degree Overview

In this degree you will examine and study issues in finance, financial markets, and risk, which have become increasingly important in recent years.

You will study the operation of modern business organisations and the role of financial institutions and capital markets in the global economy. You'll learn about statistical techniques that are employed in practice to investigate a firm's value and asset price. You'll also explore contemporary debates in finance and financial markets.
