Aug/Jan/May

Requirements

If you have completed academic work outside the U.S., you must provide official academic credentials as well as English translations of the documents. If only one document is available, we will accept notarized or certified copies of the original document. If translations are needed, it is your responsibility to have the credentials translated by a reputable translation and evaluation service. Syracuse University will not provide translations for you. A key to the marking system or grading scale should also be included if it is not indicated on the transcript.

- **First-year Students:** Attending and graduating from in-person secondary schools based in the United States for at least three full academic years (Grades 10-12).
- **Transfer Students:** Have completed at least 24 credits in person at a post-secondary institution in the United States. Students must have earned a cumulative GPA of 3.0 or higher, excluding ESL curriculum.

International Year One in Available (47 200)

Please note that students completing the British curriculum are not eligible to apply upon completion of the IGCSE/GCSE; we require at least one additional year of education. Additionally, we do not accept the BTEC for admission at this time.

Progressing students into Syracuse University receive the following merit awards for each subsequent year of enrollment based on the cumulative GPA earned upon the completion of the 30 credit hours:

- A GPA between 3.25 and 3.49 is \$10,000 per year
- A GPA between 3.5 and 3.74 is \$15,000 per year
- A GPA greater than 3.75 is \$20,000 per year

Additional information

Degree Overview

This Psychology major explore the human mind by engaging in the scientific study of behavior. Students in the psychology program enjoy a robust curriculum strengthened by research into individual and social problems. Core coursework encompasses chemistry, biology, anthropology and more, alongside practical experience in the lab or the field. Either the B.A. or B.S. degree is appropriate for students planning to pursue graduate study in psychology, and also for students planning other careers in which a background in psychology is useful (e.g., medicine, business, communications, social services or law).

The B.S. degree is an option for students who are interested in taking significantly more physical and laboratory science classes than are required for the B.A. degree.

Study Reasons

Work side-by-side with faculty and graduate students on cutting-edge research, exploring topics such as substance use, autism, ADHD, romantic relationships, prejudice, memory and decision-making.

Take part in the SPARC summer research experience, a seven-week program in which students from underrepresented groups work closely with faculty and graduate student mentors on an original research project.

Join the Psychology Club to network and collaborate with students in the program.
