

University of Greenwich

Mechanical Engineering Technology

Study details

Course type: Bachelor's degree

Degree: BEng (Hons) Mechanical Engineering Technology

Study mode: Full time

Duration: 36 Month

Cost of study

Cost : 17 500 GBP

Reg. fee : N/A GBP

Scholarship :

Insurance : N/A GBP

Intake/s

Jan/Sep

Requirements

Country specific academic qualifications:

- Achieving Specialist Diploma or Bakalavr grade Pass
- UKVI IELTS 5.5 with no less than 5.5 in each skill

Accommodation

Accommodation at Greenwich

- Four halls within walking distance of campus.
- Live close to the heart of London.
- Dedicated postgraduate accommodation.
- Free shuttle bus.
- Facilities include an on-site gym, café, shop and laundrette.

Free gyms: Includes free on-campus gym membership (Avery Hill and Greenwich) and access to ActiveGRE activities.

24/7 security: Security staff on site.

24/7 residential support: Residential support staff on-call for advice and welfare.

Speciality

Pathways international year one and zero are available

Additional information

Degree Overview

The mechanical engineering technology degree covers a wide range of topics, including the principles of engineering mechanics, thermos-fluid applications, product design and development, and computer-aided design. Through this course you will explore practical skills and gain a breadth and depth of knowledge enabling you to share ideas with engineers from different disciplines. This degree is accredited by the Institution of Engineering and Technology on behalf of the Engineering Council and meets the educational requirements for registration as an incorporated engineer. It is the perfect launchpad for a mechanical engineering career in high-value manufacturing, as well as the automotive and aerospace industries

Study Reasons

- Ranked #1 University in Kent for Graduate Prospects (The Times and Sunday Times Good University Guide 2021 and 2022)
- 2nd in the UK for student satisfaction with the course (Guardian League Table 2021)
- The course has been designed for careers in areas such as the automotive and aerospace industries, and high-value manufacturing. Suitable positions are available across a wide range of companies, or you could go on to postgraduate study or start a business of your own.
