Halls are 10-minutes away from big supermarkets and the train station. Even less is the walk to get to the city centre, full of restaurants, cafes and bars.

## Speciality

### International College Dundee

If you do not meet our academic grade requirements for your chosen course, we can offer you an alternative route to begin your studies. Our international incorporated degrees will develop your subject knowledge, academic English and university level study skills.

**Pathways Available** - International Stage One

**Tuition fees for International students will increase by no more than 5% per year for the length of your course.**

## Additional information

## Degree Overview

Our flexible Geography degrees allow you to specialise in human geography or physical geography, or to combine elements of both. In addition you can study other social science or humanities subjects.

You will develop creative skills in problem solving, presentation, and communication. You will also have the opportunity to go on field trips, and to work with partner organisations to help them solve problems that they are currently facing.

Our teaching is based on the research carried out in the department and is focused on three broad themes: creating just communities and places, shaping environmental futures, and geospatial and digital methods.

You will cover specialisms within these themes including:

- health and well being
- city futures
- geopolitics and power
- tourism and globalisation
- policing and security
- hazards and risk

Laboratories, field equipment, and specialist software like GIS (Geographic Information Systems) will support your learning.

The size of our Geography department means we can get to know you personally, and offer a friendly and supportive learning experience. You can contact any member of staff to ask for help.

The student-led Geography and Environmental Society also has a programme of activities to help you become part of our community.
