Accounting principles and procedures

Federal income taxation

Auditing standards and procedures

Want to take the Certified Public Accountant (C.P.A.) examination? Our courses will thoroughly prepare you. (By itself this program no longer qualifies students for CPA licensure.) Student interested in becoming a CPA will need to complete the 150 credit hour requirement by enrolling in the M.S. in Public Accounting program.

## Study Reasons

- The Combined B.S./M.S. in Public Accounting is a registered Certified Public Accountant (CPA) licensure-qualifying program. Upon completion, students will meet the academic requirements for admission to the CPA examination in New York State and will satisfy the licensure requirements with one year of appropriate professional experience.
