#### **Accommodation Costs:**

• The Green Village: £85 per week

• Townhouse: £75 per week

### **Speciality**

Pathways Available: Pre-Master's

**Sandwich course fees** - charged during the placement year away from the University of Bradford for students on thick sandwich courses, or during the year in which the second placement falls for students on thin sandwich courses. Students charged at 10% of the equivalent full-time fee.

If a placement year is to be undertaken abroad and supported by University funding through the University's exchange programmes, fees will increase to 15% of standard fees to cover additional support, advice and administration costs.

#### Additional information

## **Degree Overview**

LLM Technology and Artificial Intelligence Law gives you specialist knowledge of the law regulating technology. The programme covers a range of themes, including:

- privacy laws relating to technology
- data protection
- legal technologies
- human rights and technology
- regulation of artificial intelligence and cybersecurity

You will learn about the use of technology to address current and emerging global challenges such as climate change, pandemics, sustainability, and digital inclusion and the role of law in facilitating and guiding that use, while ensuring society is protected from potential harm caused by the more radical and disruptive technologies.
