## **Additional information**

### **About the Programme**

The programme offers specialisations: “Digital Business Management” and “Managerial Economics”, which is unique to the Latvian education market.

Specialisation in Digital Business Management helps students to master such concepts as digital transformation and business management tools in a digital environment. The offered specialisation’s multidisciplinary nature focuses on developing the management skills and competencies necessary for successful implementation of digital transformations to establish their own business.

Specialisation in Managerial Economics enables the future specialist to master the economic analysis methods of modern business management regardless of the type, size, and legal form of the business in globalisation focused on sustainable business development. Graduates of this programme are managers, small business or business co-owners, entrepreneurs, innovative project managers, HR managers, who know how to apply the digital business management and economic analysis tools.

### **Potential careers...**

position is a professional in the selected economic segment and initiator of changes. Graduates of this program are managers of their business areas; entrepreneurs, owners of a micro- or small business; innovative project managers; HR managers who know how to apply the digital business management and economic analysis tools.
