Speciality

Spotlight Module: "Digital Transformation"

In the "Digital Transformation" module of the **BSc Health Management curriculum**, students delve into the fundamentals of digital transformation and disruption. They contextualize digital transformation within a historical framework and analyze selected scientific literature on the subject. Furthermore, students gain insights into the network economy and change management principles applicable to networked companies and markets.

They apply their knowledge of change management to practical scenarios and explore technological meta-trends such as artificial intelligence and blockchain. Through case studies and practical applications, students evaluate the effectiveness of these meta-trends across different industries and communication contexts. This module enables students to develop visionary communication ideas while considering ethical implications and societal changes spurred by technological advancements.

Additional information

Start your Career in the Healthcare Industry

Health Management is at the intersection of business and healthcare, addressing the unique challenges of managing healthcare organizations, resources, and services. Whether you aspire to lead hospitals, healthcare facilities, insurance companies, or public health organizations, our comprehensive curriculum will prepare you to excel in a variety of roles within the healthcare industry.

In today's rapidly evolving healthcare landscape, effective management is more crucial than ever. Our innovative programme is designed to equip you with the knowledge, skills, and practical experience needed to succeed in this dynamic field. Healthcare requires specific management skills that differ from other industries. A health management degree provides knowledge in financial management, human resources, quality control, and operational efficiency.

Career Perspectives

BSc Health Management prepares students for the future requirements of a management position in the healthcare sector with leadership and management responsibility.

As a UE student, you'll have access to our **Career Development Centre** which will support and guide you through any career-related enquiry you may have.

What happens after your studies
