## Additional information

## What do you gain

- You will gain knowledge and engineering skills related to designing of IT systems; business applications; database technologies; e-business as well as broadly understood computerization of enterprises.
- You will have classes with lecturers holding many years of experience in IT companies operating locally as well as transnationally.
- You will participate in classes using IT tools that are used in enterprises.
- While developing the specializations we offer to our potential students, we collaborate with business partners operating within the IT industry.
- The business and content partners collaborating with the Major include Atos IT Services; Nokia Corporation; Galactica; Sunrise Systems; iQor Global Services Poland; and Project Management Institute.
- Work placements and study visits are held in the largest IT companies.
- You will be able to validate the acquired knowledge and skills by obtaining in the course of your studies international professional IT certificates.

## Your competence

You are going to acquire additional skills by participating in workshops co-organised by Project Management Institute, Kujawy-Pomerania Branch, with which we collaborate as a substantive partner. Our cooperation relies primarily on the organisation of open seminars and training sessions prepared by PMI members. PMI is a leading international non-profit organisation associating experts and project management enthusiasts in all sectors of the economy.

## During your studies you will learn

- You are going to study planning, implementation and project control using the latest software.
- You are going to acquire the fundamentals of programming and methods of industrial software creation.
- You are going to learn how to manage the implementation of IT system projects (ERP, WMS, CRM, SCM, MRP).
- You are going to master the design of business processes using dedicated software.
